Forzo Tech Labs

**Full Stack Developer**

**May 2023 - Present**

- **Tech Spectrum:** Node.js, React.js, and AWS Serverless Framework
- **Database Proficiency:** MySQL and Prisma.
- **Expertise:** As a Full Stack Developer for the e-check application, I leveraged a broad tech spectrum, including Node.js, React.js, and AWS Serverless Framework, to manage infrastructure efficiently. My work extended to database management with MySQL and Prisma. This role provided me with a deep understanding of both front-end and back-end technologies. Emphasizing agile development methodologies, I collaborated effectively with cross-functional teams, significantly contributing to the application's success by delivering high-quality solutions.

Mobius Knowledge and Services

**SOFTWARE DEVELOPER**

**March 2022 – April 2023**

- **Tech Spectrum:** Node.js, React.js, and Azure DevOps
- **Debugging:** Extensive experience in debugging and issue resolution
- **Database Management:** Utilized Sequelize with MySQL and NoSQL (MongoDB) databases in Node.js
- **API Integration:** Integrated RESTful APIs to ensure seamless functionality
- **Client Interactions and Testing:** Independently managed key aspects of the project lifecycle, including direct client engagement to gather requirements and design customized solutions. Took full ownership of the testing phase by developing and executing comprehensive test cases, ensuring the robustness of the project.
